

Technical Data Sheet

TUV Gloves Latex p.p.

Name of Item:	Latex-<Examination Gloves, powdered
Intended Use:	Medical, care and hygiene sector. Two way protection.
Description:	(information in mm (approx.))
Sizes:	<u>S</u> <u>M</u> <u>L</u> <u>XL</u>
Length:	240-250 240-250 240-250 240-250
Width:	80-85 90-95 100-105 110-115
Strength Palm (min):	0.13-0.14
Strength Finger (min.):	0.16-0.18
Design:	rolled edge, ambidextrous
Material:	latex-materialmixture powdered with corn starch according to USP
Tensile Strength:	21 MPa min. (before aging), 18 MPa min. (after aging) 800% min. (before aging), 600% min. (after aging)
Risk Analysis:	proteine concentration above 100 ug/g, free from formaldehyde, no toxic admixtures, no heavy metals Usage max.30min
Quality Standards:	CE according to MPG – guideline 93/42 EWG – class 1 product certification according to DIN EN ISO 9002 DIN EN ISO 455-1/-2/-3 AQL 1.5 TÜV-certificate Certification for food handling (do not use for handling greasy liquids)
Quality Controls:	production according to GMP permanent control of production lots random check up by supervisors inspection report before shipment incoming quality control by WIROS
Marking:	traceability by LOT-numbers
Packing:	hygienically packed in dispenser, 100 pieces each 1,000 pieces in each carton
Special Remarks:	Not suitable for dangerous materials (especially aggressive materials). The user is expected, if necessary, to prove the suitability of goods for the intended use at his own risk. Good needs to be stored in a cool and dry place.
