

# TERUGLOVE

**Powder-free examination glove**

**Reliable , Reassuring**

## Reliability

Medical examinations have always carried a risk of infection. However, safety measures have often been associated with the risk of allergic reactions. The Terumo Teruglove is a **powder-free** examination glove which avoids drying of the skin. Furthermore the risk of airborne latex proteins is excluded.

The Teruglove is designed to have **high tensile strength** which reduces the risk of tearing the glove when donning.

To **minimize allergic reactions** the extractable proteins and chemical residues in the glove have been reduced to non-detectable levels.

Reference	Colour coding		Size	Packaging	
				Unit box	Shipping carton
GL+ES		Blue	Small	100	1000
GL+EM		Green	Medium	100	1000
GL+EL		Orange	Large	100	1000
